

PASS THE AMMO

RULES: Other

Created By: HDS-PK

START POSITION:

Both shooters at the table, one on the left side (shooter #1) and one on the right side (shooter #2) facing the targets. Before the handling of firearms, the shooter on the right should give the shooter on the left his ammunition (to Pass The Ammo) and discuss how they want it passed to them. At the direction of the Range Officer, the shooter on the right will place their firearm on the table facing down range. Then at the direction of the Range Officer, the shooter on the left will be told to make ready and load. The shooter on the left will start from the table start position with the front of the firearm (barrel, dust cover, weapon mounted light, etc) touching the table and the back bottom of the firearm (grip, the bottom of your shooting hand) touching the table. Finger off of the trigger.

PROCEDURE:

At the start signal, the shooter on the left will commence firing two to the body and one to the head on each of the two targets presented on the left. They will then table their firearm on the table with the barrel pointed down range and slide the ammunition source to the shooter on the right. The shooter on the right will load and engage the remaining two targets (on the right side) with three shots to the body on each target.

Each shooter will be cleared by a Range Officer and the line will not be called safe until both shooters are cleared.

SCORING: Limited

ROUND COUNT: 12

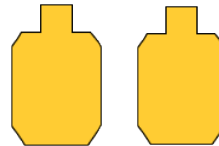

TARGETS: 4

DISTANCE: Three (3) yards and seven (7) yards.

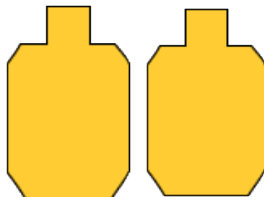

SCORED HITS:

PENALTIES: Not hitting the head on the designated head shot will be scored as a miss with a five second penalty.

NOTES: A second RO to help clear one of the two shooters is helpful.
